

THE ULTIMATE IN EQUINE NUTRITION

A fully extruded high energy supplement for horses in work or where extra condition is required. When fed in conjunction with a fortified complete feed, such as **RUNNING COOL® Sport Leisure** or **Senior** and free choice hay/pasture, **RUNNING COOL® Barley/Soy Booster** will assist in achieving weight gain and increased energy in targeted horses.

RUNNING COOL® Barley/Soy Booster is processed by extrusion to maximize digestibility and minimize digestive dysfunction.

The extrusion process changes the nutritional characteristics making carbohydrates more available for the horse's metabolism.

The nutrients become more readily absorbed in the small intestine, reducing overload into the hindgut.

Extruded nuggets promote chewing and saliva production, which is essential for buffering stomach acids.

Extruded feeds are low in dust and fines, making it an excellent feed for horses with respiratory problems.

Ingredients

Barley, vegetable protein meals (including extruded soya bean), vegetable oil, salt

Proximate analysis

Crude protein %	12 min.
Crude fat %	2 min.
Salt %	1.25 max.
Crude Fibre %	7.5 max.

Feeding guide

Weight (kg)	Feed (kg) per day Light Work	Feed (kg) per day Moderate Work	Feed (kg) per day Heavy Work
300	0.75-1.0	1.0-1.5	1.0-1.75
400	1.5-2.0	1.5-2.0	1.5-2.5
500	1.75-3.0	2.0-3.5	2.0-4.0
600	2.0-3.5	2.0-4.0	2.0-4.5

Store in a dry and cool place, protected from sunlight.

RUNNING COOL® Barley/Soy Booster is available in 20kg bags and bulk.

Does not contain restricted animal material.

Feeding management:

- Use the above feeding recommendations as a guideline, if in doubt contact a veterinarian or equine nutritionist
- No more than 2.5kg of concentrate (complete feed + **RUNNING COOL® Barley/Soy Booster**) should be fed at one time. Where > 2.5kg is required per day, this must be split across several feeds.
- Long stem roughage in the form of hay and or pasture should be available at all times and should constitute no less than 50% of the horse/ponies total feed intake on a dry weight basis.

Date of Manufacture:

Batch No:

Best used before: 3 months after date of manufacture.
