

THE ULTIMATE IN EQUINE NUTRITION

RUNNING COOL™ Sport is a fully extruded, energy dense complete feed specifically formulated for performance ponies and horses. It is a perfect feed for daily-trained horses in light to heavy work and competition horses in all sport disciplines including equestrian, racing, campdrafting, endurance, polo, reining and cutting.

RUNNING COOL™ Sport has well balanced amounts of high quality protein, amino acids and energy perfectly suited to the work load placed on sport horses. It contains enriched levels of micronutrients including anti-oxidant vitamins, minerals and chelated trace minerals to support the nutritional needs of your performance pony or horse.

RUNNING COOL™ Sport is processed by extrusion to maximize digestibility and minimize digestive dysfunction.

The extrusion process changes the nutritional characteristics making proteins, carbohydrates and lipids more available for the horse's metabolism.

The nutrients become more readily absorbed in the small intestine, reducing overload into the hindgut.

Extruded nuggets promote chewing and saliva production, which is essential for buffering stomach acids.

Extruded feeds are low in dust and fines, making it an excellent feed for horses with respiratory problems.

Ingredients

Cereal grains (including extruded barley and corn), vegetable protein meals (including extruded soya bean), molasses, vegetable oils, salt, Running Cool™ mineral and vitamin premix (including chelated minerals)

Typical analysis (as fed)

Digestible energy DE (MJ/kg)	13
Crude protein %	15
Crude fat %	5.6
Crude fibre %	7
Lysine %	0.7
Added salt (max)%	1.5

Nutrient analysis (per 1 kg feed as fed)

Calcium (g)	7.8
Phosphorus (g)	4.6
Magnesium (g)	3.6
Potassium (g)	7.8
Sodium (g)	6
Chloride (g)	10
Zinc (mg)	207
Iron (mg)	228
Copper (mg)	68
Cobalt (mg)	0.55
Manganese (mg)	169
Selenium (mg)	0.61
Iodine (mg)	1
Molybdenum (mg)	2
Vitamin A (IU)	9450
Vitamin D3 (IU)	1400
Vitamin E (IU)	263
Vitamin B1 (Thiamine) (mg)	22.5
Vitamin B2 (Riboflavin) (mg)	11.5
Vitamin B3 (Niacin) (mg)	113.2
Vitamin B5 (Pantothenic Acid) (mg)	34
Vitamin B6 (Pyridoxine) (mg)	15
Biotin (mg)	0.9
Folic acid (mg)	9
Vitamin B12 (Cyanocobalamin) (mg)	0.045
Vitamin K3 (mg)	2.3
Choline (mg)	1200

Feeding recommendations

Light Work*

Weight	Feed (kg) per day (good quality forage)	Feed (kg) per day (poor quality forages)
300	1.5-2.0	2.0-2.5
400	2.0-2.5	2.5-3.0
500	2.5-3.0	3.0-3.5
600	3.0-3.5	3.5-4.0

* 1-3hrs per week; 40% walk, 50% trot, 10% canter

Medium work*

Weight	Feed (kg) per day (good quality forage)	Feed (kg) per day (poor quality forages)
300	1.75-2.25	2.25-2.75
400	2.25-3.0	3.0-3.5
500	2.75-3.5	3.5-4.0
600	3.25-4.0	4.0-5.0

*3-5 hrs per week; 30% walk, 55% trot, 10% canter, 5% low skill work

Heavy work*

Weight	Feed (kg) per day (good quality forage)	Feed (kg) per day (poor quality forages)
300	2.75-3.0	3.0-3.25
400	3.5-4.0	4.0-4.5
500	4.0-5.0	5.0-5.5
600	5.0-6.0	6.0-6.5

* 4-5 hrs or more per week; 20% walk, 50% trot, 15% canter, 15% medium/high skill work

Feeding management:

- Use the above feeding recommendations as a guideline, if in doubt contact a veterinarian or equine nutritionist
- Total daily feed intake (roughage and concentrates) of light to medium working horses should be at 2.0-2.5% of the bodyweight and for medium to heavy working horses at 2.5-3.0% of the body weight. Feed intake may vary depending on the age, work load and climate therefore monitor your horse's body condition and weight regularly.
- Fresh and conserved forages (roughage) should be provided at a minimum of 1.0% of the bodyweight.
- Introduce feed gradually over 7-10 day period and divide total feed into multiple meals.
- Measure feed in weight not in volume.
- **RUNNING COOL™ Sport** is a complete feed. Consult a veterinarian or equine nutritionist before adding any additional vitamin and mineral supplements.

Store in a dry and cool place, protected from sunlight.

RUNNING COOL™ Sport is available in 20kg bags and bulk.

Does not contain restricted animal material.
