

THE ULTIMATE IN EQUINE NUTRITION

RUNNING COOL® Leisure is a fully extruded, complete feed specially formulated for leisure ponies and horses in light to medium work. It is an ideal feed for active leisure ponies and horses that have low to medium energy requirements and do not require high specification concentrate feeds.

RUNNING COOL® Leisure provides balanced levels of energy quality protein amino acids digestible fibre vitamins minerals and chelated trace minerals to support the nutritional needs of your pony or horse.

RUNNING COOL® Leisure is processed by extrusion to maximize digestibility and minimize digestive dysfunction.

The extrusion process changes the nutritional characteristics making carbohydrates more available for the horse's metabolism.

The nutrients become more readily absorbed in the small intestine, reducing overload into the hindgut.

Extruded nuggets promote chewing and saliva production, which is essential for buffering stomach acids.

Extruded feeds are low in dust and fines, making it an excellent feed for horses with respiratory problems.

Ingredients

Cereal grains (including extruded barley), vegetable protein meals (including extruded soya bean), legume hulls, mill run, molasses, vegetable oils, salt, Running Cool® mineral and vitamin premix (including chelated minerals)

Typical analysis (as fed)

Digestible energy DE (MJ/kg)	12.5
Crude protein %	12
Crude fat %	4
Crude fibre %	7
Lysine %	0.5
Added salt (max)%	1

Nutrient analysis (per 1 kg feed as fed)

Calcium (g)	9
Phosphorus (g)	0.5
Magnesium (g)	0.35
Potassium (g)	0.7
Sodium (g)	0.4
Zinc (mg)	150
Iron (mg)	200
Copper (mg)	50
Cobalt (mg)	0.35
Manganese (mg)	140
Selenium (mg)	0.4
Iodine (mg)	0.7
Vitamin A (IU)	6800
Vitamin D3 (IU)	980
Vitamin E (IU)	150
Vitamin B1 (Thiamine) (mg)	20
Vitamin B2 (Riboflavin) (mg)	8
Vitamin B3 (Niacin) (mg)	130
Vitamin B5 (Pantothenic Acid) (mg)	30
Vitamin B6 (Pyridoxine) (mg)	10.5
Biotin (mg)	0.7
Folic acid (mg)	6
Vitamin B12 (Cyanocobalamin) (mg)	0.03

Feeding recommendations

Maintenance

Weight (kg)	Feed (kg) per day (good quality forage)	Feed (kg) per day (poor quality forages)
300	1.0-1.5	1.5-2.0
400	1.5-2.0	2.0-2.5
500	2.0-2.5	2.5-3.0
600	2.5-3.0	3.0-3.5

Light/leisure work*

Weight (kg)	Feed (kg) per day (good quality forage)	Feed (kg) per day (poor quality forages)
300	1.5-2.0	2.0-2.25
400	2.0-2.5	2.5-3.0
500	2.5-3.0	3.0-3.5
600	3.0-3.5	3.5-4.0

* 1-3hrs per week; 40% walk, 50% trot, 10% canter

Medium work*

Weight (kg)	Feed (kg) per day (good quality forage)	Feed (kg) per day (poor quality forages)
300	1.75-2.25	2.25-2.75
400	2.25-3.0	3.0-3.5
500	2.75-3.5	3.5-4.0
600	3.25-4.0	4.0-5.0

* 3-5 hrs per week; 30% walk, 55% trot, 10% canter, 5% low skill work

Feeding management:

- Use the above feeding recommendations as a guideline, if in doubt contact a veterinarian or equine nutritionist
- Total daily feed intake (roughage and concentrates) of non-working, light and medium working horses should be at 2.0-2.5% of body weight. Feed intake may vary depending on the age, work load and climate therefore monitor your horse's body condition and weight regularly.
- Fresh and conserved forages (roughage) should be provided at a minimum of 1.0% of the bodyweight.
- Introduce feed gradually over 7-10 day period and divide total feed into multiple meals.
- Measure feed in weight not in volume.
- RUNNING COOL® Leisure is a complete feed. Consult a veterinarian or equine nutritionist before adding any additional vitamin and mineral supplements.

Date of Manufacture:

Batch No:

Best used before: 3 months after date of manufacture.

Store in a dry and cool place, protected from sunlight.

RUNNING COOL® Leisure is available in 20kg bags and bulk.

Does not contain restricted animal material.
